WORK EXPERIENCE

University of Colorado Boulder: MCDB 1161

Jan. 2024 – May 2024

Laboratory Research Assistant, Phage Genomics

Boulder, CO

The University of Colorado Boulder's MCDB 1161 Phage Genomics Lab offers hands-on research opportunities in molecular and cellular biology with an emphasis on genomics.

- Supported research methodologies by following strict protocols, maintaining aseptic technique, and ensuring contamination prevention during experiments.
- Utilized technology tools and data visualization methods to analyze scientific data and present results relevant to health and biology research.
- Collaborated with instructors and student teams to optimize experimental design, troubleshoot lab procedures, and strengthen research outcomes.
- Participated in weekly lab meetings to discuss research progress, troubleshoot experiments, and review recent scientific literature relevant to phage biology.

ScribeAmerica

Jun. 2025 – Dec. 2025

Healthcare Documentation Specialist (Medical Scribe)

Colorado Springs, CO

ScribeAmerica is a leader in enhancing medical workflow efficiency through expert medical documentation support in hospitals and outpatient facilities.

- Maintained high data integrity in EHR systems, accurately recording patient histories and diagnostic results for healthcare providers.
- Reviewed and input clinical and laboratory results, supporting medical teams in clinical decision-making and patient care delivery.
- Ensured strict adherence to HIPAA guidelines and healthcare documentation standards in high-volume medical environments.
- Collaborated with clinical staff to ensure accurate and timely reporting of laboratory results and patient status, supporting health outcomes tracking.

University of Colorado Boulder - Department of

Aug. 2022 – May 2026

Psychology

Undergraduate Research Assistant

Boulder, CO

Interdisciplinary laboratory focusing on biopsychology and behavioral genetics. Investigates the biological underpinnings of behavior through systematic experimentation and large-scale data analysis.

- Analyzed complex datasets at the intersection of biological markers and behavioral outcomes, demonstrating proficiency in statistical software and data integrity.
- Bridged theoretical psychological concepts with experimental biological methods to test hypotheses regarding behavioral genetic predispositions.
- Maintained detailed laboratory records and ensured compliance with ethical standards and university research protocols.
- Presented nuanced findings during team meetings, effectively translating complex genetic and behavioral data into actionable insights for faculty and research peers.

University of Colorado Boulder - Department of Molecular, Cellular, & Developmental Biology

Aug. 2022 – May 2026

Undergraduate Research Assistant

Boulder, CO

Academic research laboratory focused on molecular genetics and bacteriophage characterization. Dedicated to investigating viral-host interactions and genetic mechanisms in controlled laboratory environments.

- Performed high-precision laboratory techniques to isolate and characterize bacteriophage samples, ensuring strict adherence to contamination-control protocols.
- Applied genetic analysis tools to interpret molecular data, contributing to a broader understanding of microbial genomics.

- Maintained laboratory equipment and reagents to ensure compliance with safety standards and experimental integrity.
- Analyzed data using statistical software to identify significant trends and support hypotheses in microbial developmental biology.

Colorado Behavior and Learning Group

Jan. 2026 – May 2026

Clinical Data Analyst (ABA Therapist)

Colorado Springs, CO

Colorado Behavior and Learning Group delivers evidence-based Applied Behavior Analysis services in a clinical healthcare setting.

- Analyzed behavioral and clinical data trends to monitor patient outcomes in a medical and research-focused setting.
- Applied data collection, review, and analysis to support healthcare protocol adherence and quality improvements in patient care.
- Documented individualized treatment metrics, preparing detailed reports for clinical supervisors to inform care strategies.
- Maintained accurate client records, aligned with healthcare documentation standards and evidence-based treatment plans.

Pikes Peak Athletics

Jan. 2023 – Jun. 2025

Safety-Focused Swimming Instructor

Colorado Springs, CO

Pikes Peak Athletics provides aquatic education and safety-focused training for all ages in the Colorado Springs area.

- Developed structured lessons prioritizing safety protocols and risk prevention, aligning with best practices in health and wellness standards.
- Tracked student data and communicated performance and safety feedback to students and caregivers.
- Enforced pool and equipment safety standards, fostering a hazard-free environment.
- Collaborated with management to uphold program quality and maintain compliance with training protocols.

EDUCATION

University of Colorado Boulder

2026

Bachelor of Arts, Psychology; Major: Minor in Molecular Biology

Boulder, CO

- Interdisciplinary studies bridging Biological Sciences and Behavioral Psychology.
- Completed an extensive research-based curriculum with a primary focus on genetic mechanisms and behavioral data analysis.
- Developed a robust foundation in scientific methodology, data integrity, and cross-disciplinary critical thinking through specialized laboratory-based coursework.

CERTIFICATIONS

- **Certifications:** Phlebotomy Certification - NPCE (Expected July 2026); BLS - Red Cross (July 2026 to July 2028); CPR/AED - Red Cross (March 2025 to March 2027); ABAT - QABA Board (January 2026 to January 2027)
- **Skills:** Sample Preparation; Specimen Processing Concepts; Laboratory Safety; Aseptic Technique Awareness; Quality Control; Scientific Documentation; Data Recording; Protocol Adherence; Contamination Prevention; Accurate Measurement; Sample Handling; Medical Documentation; EHR Data Entry; Lab Equipment Familiarity; Team Collaboration; Attention to Detail; Clinical Data Analysis
- **Technologies:** Microsoft Excel; Google Sheets; Microsoft Office; Python; R; EHR Documentation; Google Workspace; Java
- **Languages:** English (Native)
- **Interests:** Scientific Research; Healthcare Data Management; Molecular Biology; Cellular Biology; Laboratory Science; Specimen Processing; Experimental Design Concepts; Data Analysis; Biology Lab Coursework; Chemistry Lab Coursework; Phage Genomics; Scientific Writing; Literature Review; Fast-paced Workflow Management; Community Service
